About ACTIVEAID

ACTIVEAID, Inc. has been manufacturing quality medical equipment since 1965. A diversity of fine products address a range of uses from daily care assistance in the home environment to products designed for the hospital and institutional market.

ACTIVEAID will continue to design and develop innovative products for the adult and pediatric market. We want to be considered the “active” company in rehab equipment by offering those in need an opportunity to achieve a self-reliant and independent lifestyle through the use of our products.

Customization

ACTIVEAID utilizes computer aided design (CAD) and computer aided engineering (CAE) to assist in the manufacture of custom design changes to our existing products.

Our capabilities can effectively deal with a simple back height change or address a more complex need such as seat depth, width or seat angle configuration. Our rehab engineering and customer service staff are trained and dedicated to expertly and efficiently work with custom applications. Contact us: 800-533-5330.

ACTIVEAID’s complete product line can be seen on our website. www.activeaid.com
